Watch the birdie: Mooroolbool toddler Errol Maujean with the kookaburra. Picture: LISA WHITE

King of the bush teams with two-year-old for good laugh

TWO-year-old Errol Maujean has been lending Far North Queensland Wildlife Rescue a hand with this injured kookaburra.

The toddler's mum Lisa White is an active member of the society and looked after the iconic bird after it was found suffering from concussion at Peats Bridge in

March. The kookaburra made a full recovery, thanks to the volunteers' help.

It was released into the wild early this month.

Ms White said kookaburras were placid, but difficult to feed in captivity.
